

## **Justification for removing a substance from CoRAP prior to evaluation**

<b>Substance Name (public name):</b>	Octahydro-1,3,5,7-tetranitro-1,3,5,7-tetrazocine (HMX)
<b>EC Number:</b>	220-260-0
<b>CAS Number:</b>	2691-41-0
<b>Authority:</b>	National Public Health Center
<b>Date:</b>	17/03/2021

**The priority for evaluating the substance has been reconsidered based on:**

<input type="checkbox"/>	<b>The initial hazard ground of concern has been verified and considered of low priority</b>
	<ul style="list-style-type: none"> <li>• <i>Indicate the initial hazard ground of concern (e.g. suspected CMR, ED, PBT, as presented in chapter 5.3 of the CoRAP justification document)</i></li> <li>• <i>Provide the reasons for reconsidering their relevance.</i></li> </ul>

<input type="checkbox"/>	<b>The initial exposure/risk ground of concern has been verified and considered of low priority</b>
	<ul style="list-style-type: none"> <li>• <i>Indicate the initial exposure/risk ground of concern (e.g. wide dispersive use, consumer use, high RCR, as presented in chapter 5.3 of the CoRAP justification document)</i></li> <li>• <i>Provide the reasons for reconsidering their relevance.</i></li> </ul>

<input checked="" type="checkbox"/>	<b>The generation of information under Substance Evaluation is considered of low priority because</b>
	<input type="checkbox"/> Already ongoing or implemented regulatory risk management process(es) <i>Specify which process(es) and explain, e.g. compliance check, substance evaluation for a larger group, restriction, SVHC identification, others</i>
	<input type="checkbox"/> Registrants' (voluntary) action addresses concern <i>Specify</i>
	<input checked="" type="checkbox"/> Other: Intended regulatory risk management process (CLH)  After the thorough review of the available data HU CA concluded that there is sufficient information available to initiate the CLH procedure regarding the reproductive toxicity properties of the substance, and no data generation is needed via the substance evaluation.
