

Justification for removing a substance from CoRAP prior to evaluation

Substance Name (public name): [3R-(3 α ,3 $\alpha\beta$,7 β ,8 $\alpha\alpha$)]-1-(2,3,4,7,8,8a-hexahydro-3,6,8,8-tetramethyl-1H-3a,7-methanoazulen-5-yl)ethan-1-one

EC Number: 251-020-3

CAS Number: 32388-55-9

Date: 22/03/2022

The priority for evaluating the substance has been reconsidered based on:

<input type="checkbox"/>	The initial hazard ground of concern has been verified and considered of low priority

<input type="checkbox"/>	The initial exposure/risk ground of concern has been verified and considered of low priority

<input checked="" type="checkbox"/>	The generation of information under Substance Evaluation is considered of low priority because
	<p><input checked="" type="checkbox"/> Already ongoing or implemented regulatory process(es)</p> <p><u>Rationale for withdrawal:</u></p> <p>The substance (MCK) was included in CoRAP for initial concerns related to potential PBT and ED properties.</p> <p>A compliance check (CCH) process for this substance is on-going. ECHA sent a decision requesting information related to the initial concerns. As a result, the registrants provided further information, which according to NL CA does not clarify the concerns. However, the NL CA considers that the concerns could be clarified by requesting further information under CCH. Consequently, NL CA withdraws the substance from the CoRAP list. If the concerns will not be sufficiently addressed by the outcome of the CCH(s), the Substance Evaluation route will be pursued by re-introduction of the substance on the CoRAP list.</p>
