Summary

In accordance with Article 10, paragraph 1 of Regulation (EU) No 649/2012 (the PIC Regulation), exporters and importers are required to inform their Designated National Authorities (DNAs) about trade in PIC Annex I chemicals in the preceding year, by 31 March of each year. However, due to the COVID-19 pandemic, the legal deadline for companies to submit their data on exports and imports in 2019 was extended from 31 March to 31 May 2020.

In accordance with Article 10, paragraph 3 and Annex III of the regulation, each EU Member State should then provide ECHA with aggregated information so that ECHA can summarise the data at Union level and make publicly available the non-confidential information.

This report summarises the trade activity of chemicals listed in Annex I of the PIC Regulation, in 2019, based on the data received from the Member States and the United Kingdom.

Note: The "Destination Region(s)" are provided in accordance with the codes for the United Nations Regional Groups: AF (African Group), AP (Asia and Pacific), CEE (Central and Eastern European Countries), WEOG (Western European and Others Group), GRULAC (Group of Latin America and Caribbean Countries).

1. Export of chemicals

22 Member States (Austria; Belgium; Bulgaria; Croatia; Czech Republic; Denmark; Finland; France; Germany; Hungary; Ireland; Italy; Latvia; Lithuania; Netherlands; Poland; Portugal; Romania; Slovakia; Slovenia; Spain; Sweden) and United Kingdom reported trade activities and submitted data about exports in 2019 of PIC Annex I chemicals.

The following 5 Member States reported that no chemicals were exported: Cyprus; Estonia; Greece; Luxembourg; Malta.

511 exporters provided data. On the basis of this information, the non-confidential summary of the data on exports is available in tables 1 and 2. Table 1 provides a more detailed breakdown of the data whereas table 2 presents an aggregated view by Annex I entry.

2. Import of chemicals

20 Member States (Austria; Belgium; Bulgaria; Czech Republic; Finland; France; Germany; Greece; Hungary; Ireland; Italy; Latvia; Lithuania; Netherlands; Poland; Portugal; Romania; Spain; Sweden) and United Kingdom reported imports of PIC Annex I chemicals in 2019.

The following 8 Member States reported that no chemicals were imported: Croatia; Cyprus; Denmark; Estonia; Luxembourg; Malta; Slovakia; Slovenia.

136 importers provided data. On the basis of this information, the non-confidential summary of the data on imports is available in tables 3 and 4. Please note that, as far less data on imports is available compared to exports, more substances must be aggregated in order to avoid disclosure of confidential information.
