4.1.1 Use-specific instructions for use

The product must be shaken before use. Use only in well-ventilated areas. Do not use on children less than 14 years old. Respect the recommended application doses. Do not exceed one application per day. Only apply on uncovered skin (face, neck, three quarter arms, hands and half-legs). Do not spray directly in the face, e.g. spray your hands and rub them over the face. Do not apply on damaged skin (skin lesions, sunburn, skin disease...). In case of need for sunscreen, wait at least 30 minutes after the application of this protection to apply the repellent. Do not put hands in mouth after application. To prevent contamination of food, avoid contact of treated skin with food. Do not use the spray near food and surfaces that may come into contact with food or drink intended for human consumption. Keep away from food, drink and animal feeding stuff. Do not use the product before bathing or showering. Protection time can be lowered by sweating, water wash off, rubbing, high temperature (>30°C), wind velocity, etc. The authorisation holder should be informed in case of inefficiency of the treatment.

4.1.2 Use-specific risk mitigation measures

If swallowed: Risk of dizziness and loss of consciousness. Ingestion may lead to acute poisoning. Immediately contact the poison control center. Do not induce vomiting without medical advice. In case of contact with eyes: If necessary, remove contact lenses. Wash under tepid water for about ten minutes, eyes open, do not forget to wash under eyelids. If the eye remains red two hours washing, consult a doctor. In case of skin lesions, red patches or persistent pain after applying the product, consult a doctor. The active substance in the product (DEET) is likely to induce a nervous hyperexcitability especially with sensitive person (epileptic) or when co-exposure with a convulsant product.

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Dispose of contents/container to a suitable collection point. Leave biocidal products in original containers. Do not mix with other wastes. Containers containing residues of the product have to be handled according to national regulations. Do not allow product to directly reach sewage system, surface waters or ground water. In case of accidental spillage of this product collect escaping product by means of liquid binding material (e. g. grit, universal binder material, diatomaceous earth) and dispose off as hazardous waste.

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

see section "Instruction for safe disposal of the product and its packaging".

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

The product must not be stored more than 2 weeks at 54°C. Keep out of the reach of children. A shelf life of 3 years is granted.
