

List of notifications

Prepared as of 15 September 2020

Explanatory Note

Part I of the table lists the substance/product-type combinations notified for inclusion in the review programme for which ECHA has issued a declaration of compliance in accordance with Article 17(5) of the Review Programme Regulation (EU) No 1062/2014, together with the name of the notifying company ("participant" in accordance with Article 2(c) of the Review Programme Regulation).

The list includes notifications made for redefined active substances, substance/product-type combinations in part 2 of Annex II to the Review Programme Regulation, substances where previous participants made a timely withdrawal, substances that previously benefitted from the food & feed derogation, substances where the product-type was modified under the BPR compared to the BPD. The list will be updated regularly.

Companies interested by the same active substance/product-type combination(s) are encouraged to collaborate to submit the application for approval of the active substance where appropriate, in particular to minimise testing on animals. An application for "active substance evaluation under Regulation (EU) No 1062/2014 (Participant)" (AS-EVA) must be submitted by the participants within 2 years of the relevant notification compliance decision (in accordance with Article 3(2) of the Review Programme Regulation).

The active substance/product-type combinations will be added to the Article 95 list of relevant substances and suppliers when the complete substance dossier is submitted and validated by the evaluating Competent Authority. Once the active substance/product-type combination is added to the Article 95 list, it will be removed from this list of successful notifications.

Part II lists the active substance/product-type combinations for which ECHA has not received a notification or for which ECHA has issued a declaration of non-compliance in accordance with Article 17(5) of the Review Programme Regulation (and no compliant notification has been received from another notifier for this active substance/product-type combination, or for which the participants have made a timely withdrawal as per Article 11 (e.g. no active substance application following a successful notification has been received by the deadline). These active substance/product-type combinations will either be removed from the review programme (section Ia and b) or will not be included into the review programme (section II).

For substances that will be removed from the review programme (Part II, section Ia and Ib), the Commission is to take a non-approval decision according to Article 20 of the Review Programme Regulation. The maximum phase-out periods, after the date of the decision not to approve and subject to national laws, are 12 months for the making available on the market of the products and 18 months for using those products, in accordance with Art 89(2) of the BPR.

Biocidal products consisting of, containing or generating the active substances listed in Part II section II must be phased-out. The maximum phase-out periods, after the publication date per substance in this list and subject to national laws, are 12 months for making available on the market of the products and 18 months for the use of existing stocks.

Part I: List of compliant notifications

Active substance ¹	EC number	CAS number	Product-Type(s)	Participant	Deadline for Active Substance application
Silver chloride	232-033-3	7783-90-6	9	CHT R. Beitlich GmbH	20/11/2017
			9	BBI Technologies Europe Limited	15/01/2018
			1, 2, 9	Nolla Antimicrobial Oy	22/01/2018
Active chlorine generated from sodium chloride and pentapotassium bis(peroxymonosulfate)bis(sulfate)(KPMS)	n/a	n/a	2, 3, 4, 5	Antec International Ltd	16/04/2018
Active bromine generated from hypobromous acid and urea and bromourea	n/a	n/a	11, 12	ICL Europe Coöperatief U.A	06/09/2018
Active bromine generated from sodium hypobromite and N-bromosulfamate and sulfamic acid	n/a	n/a	11	ICL Europe Coöperatief U.A	06/09/2018

¹ Active substances generated in situ, i.e. generated at the place of use from one or more precursors, are not covered by an entry unless the applied precursors are indicated following the expression “generated from”.

Active substance ¹	EC number	CAS number	Product-Type(s)	Participant	Deadline for Active Substance application
Orange, sweet, ext. <i>Extractives and their physically modified derivatives such as tinctures, concretes, absolutes, essential oils, oleoresins, terpenes, terpene-free fractions, distillates, residues, etc., obtained from Citrus sinensis, Rutaceae.</i>	232-433-8	8028-48-6	19	Oro Agri International Ltd.	04/09/2019
Cymbopogon winterianus oil, fractionated, hydrated, cyclized	n/a	n/a	19	CHEMIAN TECHNOLOGY LIMITED	01/12/2019
Copper, powder	231-159-6	7440-50-8	21	Eckart GmbH	05/07/2020
Reaction products of aluminium trihydroxide and hydrochloric acid and aluminium and water	n/a	n/a	2	Spectrum Brands Germany GmbH	30/07/2021

Part II: List of active substance/product-type combinations for which no notifications were submitted or submitted notifications were not found compliant, or for which no active substance application was submitted by the deadline required following a successful notification

Section Ia: substances no longer supported under the review programme following ECHA's open invitation to take over the role of participant because no notifications were submitted or submitted notifications were not found compliant²

Active substance	EC number	CAS number	Product-Type(s)
Carbon dioxide	204-696-9	124-38-9	19
Dialuminium chloride pentahydroxide	12042-91-0	234-933-1	2
Metam-sodium	137-26-8	137-42-8	9, 11
Thiram	205-286-2	137-26-8	9

² The Commission is to take a non-approval decision for these substances, as per Article 20 of the Review Programme Regulation. The maximum phase-out periods, after the date of the decision not to approve and subject to national laws, are 12 months for the making available on the market of the products and 18 months for using those products, in accordance with Art 89(2) of the BPR.

Section Ib: substances for which no active substance application was submitted by the deadline indicated in the last column (or other types of timely withdrawals were made, as per Article 11 RPR). These substances are expected to be removed from the review programme by a Commission non-approval decision

Active substance	EC number	CAS number	Product Type(s)	Deadline for active substance application
Silver, as a nanomaterial ³	231-131-3	7440-22-4	2, 4, 9	18/12/2017
Chlorine dioxide	233-162-8	10049-04-4	2, 3, 4, 5	27/08/2018
Eucalyptus citriodora oil and citronellal, hydrated, cyclized	n/a	n/a	19	10/01/2020
2-Hydroxy- $\alpha,\alpha,4$ -trimethylcyclohexanemethanol	255-953-7	42822-86-6	19	26/01/2020

Section II: food and feed substances to be phased-out in biocidal products according to the timelines indicated in Article 21 of the Review Programme Regulation

³ The participants have indicated there is on-going litigation which may impact the withdrawal status.

Active substance	EC number	CAS number	Product Type(s)	Publication date ⁴
alpha-Lactose monohydrate	238-691-8	5989-81-1	19	09/11/2017
Brandy	n/a	n/a	19	09/11/2017 ⁻⁵
Fulvic acid	n/a	308066-67-3	19	09/11/2017
Lemon oil	n/a	8008-56-8	19	09/11/2017
Mentha arvensis, ext. <i>Extractives and their physically modified derivatives such as tinctures, concretes, absolutes, essential oils, oleoresins, terpenes, terpene-free fractions, distillates, residues, etc., obtained from Mentha arvensis, Labiatae</i>	290-058-5	90063-97-1	19	09/11/2017
Peanut butter	n/a	n/a	19	09/11/2017 ⁻⁵
Pepper (Piper), P. nigrum, ext. <i>Extractives and their physically modified derivatives such as tinctures, concretes, absolutes, essential oils, oleoresins, terpenes, terpene-free fractions, distillates, residues, etc., obtained from Piper nigrum, Piperaceae</i>	284-524-7	84929-41-9	19	09/11/2017
Saccharomyces cerevisiae, ext. <i>Extractives and their physically modified derivatives such as tinctures, concretes, absolutes, essential oils, oleoresins, terpenes, terpene-free fractions, distillates, residues, etc., obtained from Saccharomyces cerevisiae, Saccharomycelaceae.</i>	283-294-5	84604-16-0	19	09/11/2017

⁴ Biocidal products consisting of, containing or generating the active substances listed in Part II Section II must be phased-out. The maximum phase-out periods, after the publication date indicated in the last column of this table and subject to national laws, are 12 months for the making available on the market of the product and 18 months for the use of existing stocks, as per Article 21(3) of the Review Programme Regulation.

⁵ Following the Board of Appeal decisions in appeals A-013-2017 and A-014-2017, in which the Board of Appeal annulled on 4 April 2019 ECHA's Decisions to reject the notifications of peanut butter and brandy, ECHA reopened the possibility to submit notifications for these two entries.
