Administrative information

1.1. Trade names of the product

Nippon Ant Killer Liquid 2

1.2. Authorisation holder

Name and address of the authorisation holder	Name	Vitax (Ireland) Limited
	Address	Block 3, Harcourt Centre Harcourt Road D02 A339 Dublin Ireland
Authorisation number	NO-2015-0109	
R4BP 3 asset reference number	NO-0010482-0000	
Date of the authorisation	21/05/2015	
Expiry date of the authorisation	27/03/2025	

1.3. Manufacturer(s) of the biocidal products

Name of the manufacturer	Vitax Limited
Address of the manufacturer	Owen Street LE67 3DE Coalville United Kingdom
Location of manufacturing sites	Owen Street LE67 3DE Coalville United Kingdom

1.4. Manufacturer(s) of the active substance(s)

Active substance	49 - Spinosad
Name of the manufacturer	Dow Agrosciences BV
Address of the manufacturer	Antwerp B-2650 Antwerp Belgium
Location of manufacturing sites	Confidential to manufacturer Confidential to manufacturer Confidential to manufacturer European Union

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Spinosad	Spinosad as a mixture of 50-95 % spinosyn A and 5-50 % spinosyn D.	Active Substance	168316-95-8	434-300-1	0,095

2.2. Type of formulation

RB - Bait (ready for use)

3. Hazard and precautionary statements

Hazard statements	Harmful to aquatic life with long lasting effects. Contains 1,2-benzisothiazolin-3-one. May produce an allergic reaction.
Precautionary statements	Avoid release to the environment. Keep out of reach of children. Dispose of contents to a household waste recycling centre as hazardous waste.

4. Authorised use(s)

4.1 Use description

Use 1 - Non-professional use in and around domestic premises

Product type	PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)
Where relevant, an exact description of the authorised use	VII.1 Stored Product Protection / Food protection VII.2 Health protection
Target organism(s) (including development stage)	Scientific name: Hymenoptera: Formicidae: Common name: Ants including <i>Lasius niger</i> (Black garden ant) Development stage: Adults, imagines and larvae
Field(s) of use	Indoor Outdoor IV 1.3.2 Indoor use in/at households/private areas IV 2 outdoor use (around domestic premises)
Application method(s)	Bait application - V1 6 Bait application (open and in bait boxes)
Application rate(s) and frequencies	0.3 to 0.4 g per bait point - 100 - Apply:- 3 to 4 drops (0.3 to 0.4 g) of product per bait point applied to an impervious surface (e.g. plastic, glass or metal), placed near the ant run or nest; maximum of 3 bait points per infestation, OR- 3 to 4 drops (0.3 to 0.4 g) of product per refillable bait station, placed near the ant run or nest; maximum of 3 bait points per infestation There should be an interval of at least 7 days between successive 28-day treatment campaigns. When used outdoors, the biocidal product must either be applied in a maximum of 3 refillable bait stations OR as a gel bait at a maximum of 3 bait points (but not both use patterns at the same time). Effective for up to 1 month
Category(ies) of users	General public (non-professional)
Pack sizes and packaging material	Tube, Plastic: LDPE , 15 to 50 g 15 to 50 g LPDE tube See PAR

4.1.1 Use-specific instructions for use

Wash hands and exposed skin before meals and after use
Prevent access to baits by children and animals
Keep in a safe place
Hazardous to bees
Do not use where food, feed or water could become contaminated
There should be an interval of at least 7 days between successive 28-day treatment campaigns.
When used outdoors, the biocidal product must either be applied in a maximum of 3 refillable bait stations OR as a gel bait at a maximum of 3 bait points (but not both use patterns at the same time).
Effective for up to 1 month.

4.1.2 Use-specific risk mitigation measures

Wash hands and exposed skin before meals and after use
Prevent access to baits by children and animals
Keep in a safe place
Hazardous to bees
Do not use where food, feed or water could become contaminated
There should be an interval of at least 7 days between successive 28-day treatment campaigns.
When used outdoors, the biocidal product must either be applied in a maximum of 3 refillable bait stations OR as a gel bait at a maximum of 3 bait points (but not both use patterns at the same time).
Effective for up to 1 month.

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Skin contact: No harmful effects anticipated from dermal exposure to intact skin. Wash with soap and water.
Eye contact: Possible irritation. Rinse with water thoroughly. If irritation persists seek medical advice.
Ingestion: Low toxicity. Wash out mouth with water and seek medical advice.

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements.
Remove all remains of bait and bait containers. This material and its container must be disposed of in a safe way.
Do not contaminate surface water or drains with chemicals or used container.
Do not re-use container.

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Store in original container.
Shelf life up to 2 years

5. General directions for use

5.1. Instructions for use

See authorised uses

5.2. Risk mitigation measures

See authorised uses

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

See authorised uses

5.4. Instructions for safe disposal of the product and its packaging

See authorised uses

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

See authorised uses
