Administrative information

1.1. Trade names of the product

Raid Ant Bait
Loxiran Ant Bait Station
Raid Ant Bait Station

1.2. Authorisation holder

Name and address of the authorisation holder	Name	W. Neudorff GmbH KG
	Address	An der Mühle 3 31860 Emmerthal Germany
Authorisation number	IE/BPA 70738	
R4BP 3 asset reference number	IE-0012575-0000	
Date of the authorisation	02/04/2014	
Expiry date of the authorisation	01/11/2024	

1.3. Manufacturer(s) of the biocidal products

Name of the manufacturer	W. Neudorff GmbH KG
Address of the manufacturer	An der Mühle 3 31860 Emmerthal Germany
Location of manufacturing sites	An der Mühle 3 31860 Emmerthal Germany

1.4. Manufacturer(s) of the active substance(s)

Active substance	49 - Spinosad
Name of the manufacturer	Dow AgroSciences
Address of the manufacturer	CPC2 CAPITAL PARK, FULBOURN CB21 5XE CAMBRIDGE United Kingdom
Location of manufacturing sites	Harbor Beach, 305 North Huron Avenue 48441 Michigan United States

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Spinosad	Spinosad as a mixture of 50-95 % spinosyn A and 5-50 % spinosyn D.	Active Substance	168316-95-8	434-300-1	0,0166
citric acid	2-hydroxypropane-1,2,3-tricarboxylic acid	Non-active substance	77-92-9	201-069-1	0,5
C(M)IT/MIT	5-chloro-2-methylisothiazol-3(2H)-one (C(M)IT) and 2-methylisothiazol-3(2H)-one (MIT) in ratio (3:1)	Non-active substance	26172-55-4		0,002

2.2. Type of formulation

RB - Bait (ready for use)

3. Hazard and precautionary statements

Hazard statements	Contains a mixture of 5-chloro-2-methyl-2H-isothiazol-3-one and 2-methyl-2H-isothiazol-3-one (3:1). May produce an allergic reaction.
Precautionary statements	

4. Authorised use(s)

4.1 Use description

Use 1 - Control of black garden ant (*Lasius niger*)

Product type	PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)
Where relevant, an exact description of the authorised use	Raid Ant Bait I is used to eliminate black garden ant colonies in residential houses and adjacent areas like balconies and terraces. The intended uses include indoor and outdoor application using a bait trap. Traps are placed in proximity to ant nests or directly onto ant trails. Within 3-4 weeks the population will become extinct.
Target organism(s) (including development stage)	Scientific name: <i>Lasius niger</i> Common name: black garden ant (<i>Lasius niger</i>) Development stage: Adults
Field(s) of use	Indoor Outdoor Raid Ant Bait is used indoors in living and sleeping quarters and on terraces and balconies
Application method(s)	Method: Bait application Detailed description: Raid Ant Bait is a ready to use product. It is intended for indoor and outdoor use in residential houses and adjacent areas like balconies and terraces against black garden ant (<i>Lasius niger</i>) by professional and non-professional users.
Application rate(s) and frequencies	Application Rate: Ready to use Dilution (%): 0 Number and timing of application: For the control of ants a ready-to-use metal box can be used. The containers are placed in the proximity of the formicary or directly onto ant trails. Max. 2 baits stations should be used per placement/terrace or balcony or indoor. Shall be replaced after 4 weeks if necessary.
Category(ies) of users	Professional General public (non-professional)
Pack sizes and packaging material	Ready-to-use box, aluminium container (70/73/20.5 mm) containing a pad where 10 mL of formulation are placed.

4.1.1 Use-specific instructions for use

See section 5.1.

4.1.2 Use-specific risk mitigation measures

See section 5.2.

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

See section 5.3.

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

See section 5.4.

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

See section 5.5.

5. General directions for use

5.1. Instructions for use

Carefully pierce the perforated area at the side of the bait box with a pointed object (scissors, screw driver etc) to create entry / exit holes for the ants. Place the bait in the vicinity of ant nests or where ants pass regularly - along walls and base boards, in corners, under sinks, inside cabinets.
Place ONLY in positions inaccessible to children and pets.
For maximum efficacy, check the bait regularly and replace every month if necessary.
Keep away from food, drink and animal feeding stuffs.

5.2. Risk mitigation measures

- Keep out of reach of children.
- The product should only be used in adjacent areas like balconies and terraces that are not liable to submersion or becoming wet, i.e protected from rain, floods and cleaning water.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

First aid measures
General advice
- Remove contaminated, soaked clothing immediately and dispose of safely.
Inhalation
- Ensure of fresh air.
Skin contact
- In case of contact with skin wash off immediately with plenty of water.
Eye contact
- In case of contact with eyes rinse thoroughly with plenty of water and seek medical advice.
Ingestion
- Consult doctor if symptoms appear.
Notes to Physician
Symptoms

- No product specific symptoms established. No antidotes known. Symptomatic treatment
Emergency measures to protect the environment
- Use appropriate containment to avoid environmental contamination.
- Do not discharge product unmonitored into the environment.

- Take up with absorbent material (e.g. sand, sawdust, general-purpose binder).

5.4. Instructions for safe disposal of the product and its packaging

Product
- Small amounts out of private households should give away to the official disposal sites.
Contaminated packaging
- Dispose of unused product, its packaging and all other waste in accordance with local regulations.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Requirements for storage areas and containers:
- Keep out of reach of children
- Keep only in original container
- Do not store together with animal feedstuffs
- Do not store together with food.

Shelf-life: 3 years
