

Section A4.2a		Analytical Methods for the Detection and Identification	
Annex Point IIAIV.4.2(a)		of IR3535® in soil	
JUSTIFICATION FOR NON-SUBMISSION OF DATA			Official use only
Other existing data []	Technically not feasible []	Scientifically unjustified []	
Limited exposure []	Other justification [X]		
Detailed justification:	<p>According to the TNsG on data requirements, an analytical method in soil must be provided if relevant, i.e. residues in soil occur and a concentration of concern with regard to the exposure of non-target organisms is assessed.</p> <p>It is not necessary to submit an analytical method for the determination of IR3535® in soil, because occurrence of residues in soil are not probable [REDACTED]</p> <p>[REDACTED]</p> <p>[REDACTED]</p> <p>[REDACTED]</p> <p>[REDACTED]</p>

Section A4.2b		Analytical Methods for the Detection and Identification	
Annex Point IIAIV.4.2(b)		of IR3535® in air	
JUSTIFICATION FOR NON-SUBMISSION OF DATA			Official use only
Other existing data []	Technically not feasible []	Scientifically unjustified []	
Limited exposure []	Other justification [X]		
Detailed justification:	<p>According to the TNsG on data requirements, an analytical method in air must be provided if the substance is volatile (i.e. if the vapour pressure is ≥ 0.01 Pa) or spayed, or occurrence in air is otherwise probable.</p> <p>It is not necessary to submit an analytical method for the determination of IR3535® in air because occurrence in air is not probable. Section A4.2d		Analytical Methods for Detection and Identification	
Annex Point IIAIV.4.2 (d)		of IR3535® in animal and human body fluids and tissues	
JUSTIFICATION FOR NON-SUBMISSION OF DATA			Official use only
Other existing data []	Technically not feasible []	Scientifically unjustified []	
Limited exposure []	Other justification [X]		
Detailed justification:	<p>According to the TNsG on data requirements, an analytical method in animal and human body fluids and tissues must be provided if the substance is classified as toxic or highly toxic.</p> <p>It is not necessary to submit an analytical method for the determination of IR3535® in animal and human body fluids and tissues because IR3535® is not classified as toxic or highly toxic.</p>

Remarks			

Section A4.2e Annex Point IIA,IV.4.2 (e)	Analytical Methods for Detection and Identification of IR3535® in food and feeding stuffs and other products where relevant	
JUSTIFICATION FOR NON-SUBMISSION OF DATA		Official use only
Other existing data <input type="checkbox"/>	Technically not feasible <input type="checkbox"/>	Scientifically unjustified <input type="checkbox"/>
Limited exposure <input type="checkbox"/>	Other justification [X]	
Detailed justification:	<p>According to the TNsG on data requirements, an analytical method in food or feeding stuffs or other products must be provided if the substance or the material treated with it is to be used in a manner which may cause contact with food or feeding stuffs, or intended to be placed on , in, or near soils in agricultural or horticultural use.</p> <p>An analytical method in food and feeding stuffs is not submitted because IR3535® -based insect repellent products are not used in a manner which may cause contact with such materials.</p>
