5. General directions for use

5.1. Instructions for use

- *For non professionals* : Comply with the instructions for use.
- The product needs to be diluted in an appropriate trap and the trap needs to be placed outdoor (away from human activity).
- Efficacy can be observed after 7 days. In case the product is not efficient enough, change location of the trap.
- Prefer early morning/or late night to install the trap to avoid high density of wasps.
- In case of high density of wasps, several traps need to be used (3-4). The recommended distance between 2 traps is 8-12 meters.
- For maximum efficacy, the trap needs to be placed, suspended or fixed (on a wall or on a tree branch) at a height around 1-2 meter of the ground.
- Product should be used with traps specifically designed to catch wasps.

5.2. Risk mitigation measures

-

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

- *For non professionals* : If medical advice is needed, have product container or label at hand.
