4. Authorised use(s)

4.1 Use description

Use 1 - Wasp attractant, professional and general public

Product type

PT19 - Repellents and attractants (Pest control)

Where relevant, an exact description of the authorised use

The product is used to attract nuisance wasps in outdoor areas.

Target organism(s) (including development stage)

Scientific name: Vespula spp.
Common name: wasps
Development stage: Adults

Field(s) of use

Outdoor

Application method(s)

Method: Bait application
Detailed description:
Pour 250 ml of the liquid into a suitable wasp trap (a trap out of which the wasps cannot escape)

Application rate(s) and frequencies

Application Rate: 250 ml/trap
Dilution (%):
Number and timing of application:

The bait is most effective against wasps in the summer months when the wasps begin to become a nuisance. Usually from June until September or October depending on the weather conditions.

The product has a residual effect of up until 3 weeks. Residual activity depends on the weather conditions which may influence the evaporation rate, the type of trap used or the density of the wasp population. Once the trap is full with dead wasps or the level of liquid is insufficiently high for wasps to drown, the liquid can be replaced.

5. General directions for use

5.1. Instructions for use

Pour 250 ml of the liquid into a suitable wasp trap. Hang or place the trap at a place with low human activity. Choose a place with sufficient air circulation, but prevent strong wind. When the trap does not catch wasps after 2 days, hang or place the trap at another place. Hang or place the trap in the morning or in the evening when wasp activity is low to prevent wasp stings by aggressive wasps.

Attractants should only be used as preventive measure, but are not suitable to protect against wasp stings

Absorb spillage to prevent material damage. Comply with the instructions for use.

5.2. Risk mitigation measures

None.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment
