Administrative information

1.1. Trade names of the product

IODIGUARD

1.2. Authorisation holder

Name and address of the authorisation holder	Name	centre technique d'hygiene
	Address	128 avenue chateau fleury 26104 romans sur isere France
Authorisation number		LT/AP-BPV/2018/0269
R4BP 3 asset reference number		LT-0019724-0000
Date of the authorisation		19/10/2018
Expiry date of the authorisation		19/10/2028

1.3. Manufacturer(s) of the biocidal products

Name of the manufacturer	centre technique d'hygiene
Address of the manufacturer	128 avenue chateau fleury 26104 romans sur isere France
Location of manufacturing sites	Zone des chasses 26100 Romans sur Isère France

1.4. Manufacturer(s) of the active substance(s)

Active substance	1319 - Iodine
Name of the manufacturer	Alcoholes Montplet, S.A.
Address of the manufacturer	Via Trajana 53-55 08020 Barcelona Spain
Location of manufacturing sites	Via Trajana 53-55 08020 Barcelona Spain

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Iodine		Active Substance	7553-56-2	231-442-4	15
phase TA					7,13
washing soda 50%	sodium hydroxide		1310-73-2	215-185-5	0,02
potassium iodide	potassium iodide		7681-11-0	231-659-4	0,05
E102 tartrazin yellow	trisodium 5-hydroxy-1-(4-sulphophenyl)-4-(4-sulphophenylazo)pyrazole-3-carboxylate		1934-21-0	217-699-5	0,01
E155 chocolate brown	disodium 4,4'-[2,4-dihydroxy-5-(hydroxymethyl)-1,3-phenylene]diazene-2,1-diyl}dinaphthalene-1-sulfonate		4553-89-3	224-924-0	0,01
PVA phase 10%			9002-89-5		40
glycerol			56-81-5	200-289-5	5
xanthan gum			11138-66-2	234-394-2	0,7

2.2. Type of formulation

ready to use mixture

3. Hazard and precautionary statements

Hazard statements

Precautionary statements

4. Authorised use(s)

4.1 Use description

Use 1 - manual teat disinfection

Product type

PT03 - Veterinary hygiene (Disinfectants)

Where relevant, an exact description of the authorised use

IODIGUARD is a biocidal product containing PVPI. it is used in the manual post-milking disinfection of udder/teats for cows, sheep and goats.

Target organism(s) (including development stage)

Scientific name: Streptococcus uberis
Common name: Bacteria, aerobic Gram-positive
Development stage: not relevant

Scientific name: Staphylococcus aureus
Common name: Bacteria, aerobic Gram-positive
Development stage: not relevant

Scientific name: Escherichia coli
Common name: Bacteria, aerobic Gram-negative
Development stage: not relevant

Field(s) of use

Indoor

IODIGUARD is a biocidal product containing PVPI. it is used in the manual post-milking disinfection of udder/teats for cows, sheep and goats.

Application method(s)

Manual application -
manual application with teat dips

Application rate(s) and frequencies

8 mL per cow - 0 -
twice a day after each milking

Category(ies) of users

Professional

Pack sizes and packaging material

Jerry can - Plastic: HDPE - 20 L

4.1.1 Use-specific instructions for use

manual application with teat dips

4.1.2 Use-specific risk mitigation measures

wash hands after use

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

none

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Waste :
Waste management is carried out without endangering human health, without harming the environment and, in particular without risk to water, air, soil, plants or animals.
Recycle or dispose of waste in compliance with current legislation, preferably via a certified collector or company.
Do not contaminate the ground or water with waste, do not dispose of waste into the environment.
Soiled packaging :
Empty container completely. Keep label(s) on container.
Give to a certified disposal contractor.

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Keep out of the reach of children
Keep the container tightly closed
Keep only in the original container
N/A
N/A
Keep only in the original container at a temperature not exceeding°C
Storage
Keep out of reach of children.
Packaging
Always keep in packaging made of an identical material to the original.
Recommended types of packaging :
- Vats
Suitable packaging materials :
- Plastic

5. General directions for use

5.1. Instructions for use

IODIGUARD is a ready to use product. Animals have to be treated after each milking by dipping of teats/udder in the dip containing the solution. After application, the animals have to walk during approximately 30 minutes to allow the drying and film formation. before the next milking, the remaining film is eliminated by application of a foaming soap with swipes.

5.2. Risk mitigation measures

Personal protection measures, such as personal protective equipment
Use personal protective equipment that is clean and has been properly maintained.
Store personal protective equipment in a clean place, away from the work area.
Never eat, drink or smoke during use. Remove and wash contaminated clothing before re-using. Ensure that there is adequate ventilation, especially in confined areas.

- Eye / face protection

Avoid contact with eyes.

- Hand protection

wash hands after each use

- Body protection

Work clothing worn by personnel shall be laundered regularly.
After contact with the product, all parts of the body that have been soiled must be washed.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

In the event of exposure by inhalation :
go to fresh air
In the event of splashes or contact with eyes :
rinse with fresh water during 15 minutes
if irritation persists, consult a specialist
In the event of splashes or contact with skin :
wash cautiously with soap
In the event of swallowing :
Seek medical attention, showing the label.
For first aid worker
First aid workers will be equipped with suitable personal protective Equipment
Environmental precautions
Contain and control the leaks or spills with non-combustible absorbent materials such as sand, earth, vermiculite, diatomaceous earth in drums for waste disposal.
Prevent any material from entering drains or waterways.
Methods and material for containment and cleaning up
Clean preferably with a detergent, do not use solvents.

5.4. Instructions for safe disposal of the product and its packaging

Proper waste management of the mixture and/or its container must be determined in accordance with Directive 2008/98/EC.
Waste :
Waste management is carried out without endangering human health, without harming the environment and, in particular without risk to water, air, soil, plants or animals.
Recycle or dispose of waste in compliance with current legislation, preferably via a certified collector or company.
Do not contaminate the ground or water with waste, do not dispose of waste into the environment.
Soiled packaging :
Empty container completely. Keep label(s) on container.
Give to a certified disposal contractor.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Conditions for safe storage, including any incompatibilities
Keep out of the reach of children
Keep the container tightly closed
Keep only in the original container
Keep only in the original container at a temperature not exceeding .25°C
Storage
Keep out of reach of children.
Packaging
Always keep in packaging made of an identical material to the original.
Recommended types of packaging :

- Vats

Suitable packaging materials :

- Plastic
