Nordic Exposure Group NEGh

- Established October 2005 in Copenhagen
- Financed by the Nordic Council of Ministries through the Nordic Chemicals Group

Nordic Exposure Group NEGh

- Capacity building within regulatory bodies in order to build and improve existing expertise in human exposure assessment.
- Working towards developing recommendations for regulatory bodies to be able to work in a more structured way with exposure assessment.
- Create a basis for making Nordic input in the further work within relevant EU-legislation e.g. BPD and REACH
