SUMMARY OF PRODUCT CHARACTERISTICS FOR A BIOCIDAL PRODUCT

AGRORAT WAX BLOCKS

Product type(s)

PT14: Rodenticides

Authorisation number: RO/2019/0145/MRA/IT/2014/00178/AUT

R4BP asset number: RO-0019237-0000

1. ADMINISTRATIVE INFORMATION

1.1. Trade name(s) of the product

Trade name(s)	AGRORAT WAX BLOCKS
---------------	--------------------

1.2. Authorisation holder

Name and address of the authorisation holder	Name	AGROVET S.A.
	Address	20 Siriului sector 1 014354 Bucharest Romania
Authorisation number	RO/2019/0145/MRA/IT/2014/00178/AUT	
<i>R4BP asset number</i>	RO-0019237-0000	
Date of the authorisation	05/02/2014	
Expiry date of the authorisation	31/12/2026	

1.3. Manufacturer(s) of the product

Name of manufacturer	FARMAVIT OOD
Address of manufacturer	JK "HIPODRUMA" BL. 139A, ENTR. A, OFFICE 1 AND 2 1612 SOFIA Bulgaria
Location of manufacturing sites	Industrialna 2 Street 5960 Guliantsi Bulgaria

1.4. Manufacturer(s) of the active substance(s)

Active substance	Brodifacoum
Name of manufacturer	DR. TEZZA S.R.L
Address of manufacturer	Via Tre Ponti 22 37050 S. Maria di Zevio Italy
Location of manufacturing sites	Via Tre Ponti 22 37050 S. Maria di Zevio Italy

2. PRODUCT COMPOSITION AND FORMULATION

2.1. Qualitative and quantitative information on the composition of the product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Brodifacoum	3-[3-(4'-bromobiphenyl-4-yl)-1,2,3,4-tetrahydro-1-naphthyl]-4-hydroxycoumarin	active substance	56073-10-0	259-980-5	0,005 % (w/w)

2.2. Type(s) of formulation

RB Bait (ready for use)

3. HAZARD AND PRECAUTIONARY STATEMENTS

Hazard statements	
Precautionary statements	P270: Do not eat, drink or smoke when using this product. P273: Avoid release to the environment. P301: IF SWALLOWED: P310: Immediately call a POISON CENTER.

4. AUTHORISED USE(S)

4.1. Use description

Table 1. AGRORAT WAX BLOCKS

Product type	PT14: Rodenticides
Where relevant, an exact description of the authorised use	AGRORAT WAX BLOCKS is a ready to use rodenticide bait, used by professionals and non-professionals users
Target organism(s) (including development stage)	Scientific name: <i>Mus musculus</i> Common name: house mouse Development stage: adults Scientific name: <i>Rattus norvegicus</i> Common name: brown rat Development stage: adults Scientific name: <i>Rattus rattus</i> Common name: Black rat Development stage: adults
Field(s) of use	indoor use outdoor use AGRORAT WAX BLOCKS is a ready to use rodenticide bait based on an anticoagulant active substance known as Brodifacoum, effective against House mouse (<i>Mus musculus</i>), Brown rat (<i>Rattus norvegicus</i>), Black rat (<i>Rattus rattus</i>) after a single ingestion. The formulation consists in an attractive “wax block” for all the above mentioned rodent species. The product is not a warning for all the rest of rodent population
Application method(s)	Method: manual application Detailed description: Product is ready to use and must be used according doses written below. Avoid touching the product with bare hands, use protective gloves. Wax blocks must be handled carefully and placed, as they are, into the bait box, protected from the atmospheric agents, the ingestion of non-target species and in order to avoid dispersion in the environment. Observe the area of infestation and place bait boxes with baits at the dens, along rodents routes and places of major attendance.
Application rate(s) and frequency	Application rate: 80 - 500 gr / 100 sqm Dilution (%): 0 Number and timing of application: Between 2 - 4 application / month depending on the infestation rates.
Category(ies) of users	professional ; general public (non-professional)
Pack sizes and packaging material	Box, Paper, cardboard , 10 kg

4.1.1. Use-specific instructions

Bait boxes must be securely deposited in order to avoid tampering and accidental ingestion by children or non-target animals. Always ensure that bait boxes are secured properly and that the bait cannot be dragged away by rodents. Avoid treatments in the presence of not protected food or feed. Not to use in agriculture. Do not reuse the empty pack and not release in the environment, but dispose in accordance with current rules. In case of contamination wash hands thoroughly with soap and plenty of water. In case of suspected ingestion consult a Poison Control Center. The product can be dangerous if swallowed by pets or other non-target animals. If swallowed, induce vomiting. Contact your veterinarian immediately and show the container or label.

4.1.2. Use-specific risk mitigation measures

Use all the individual precautions provided to avoid contact. Protect eyes and skin. When using do not eat, drink or smoke.

4.1.3. Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

In case of ingestion of large quantities, induce vomiting, perform gastrolavage or administer activated carbon. The prothrombin activity must be monitored immediately after ingestion and in the following days. If prothrombin activity is reduced, administered vitamin K. Follow proper medical protocol in agreement with a Poison Control Centre . Always ensure that bait boxes are secured properly and that the bait cannot be dragged away by rodents. Avoid treatments in the presence of not protected food or feed. Not to use in agriculture. Do not reuse the empty pack and not release in the environment, but dispose in accordance with current rules. In case of contamination wash hands thoroughly with soap and plenty of water. In case of suspected ingestion consult a Poison Control Center. The product can be dangerous if swallowed by pets or other non-target animals. If swallowed, induce vomiting. Contact your veterinarian immediately and show the container or label.

4.1.4. Where specific to the use, the instructions for safe disposal of the product and its packaging

Arrange disposal by incineration or with other approved suitable treatments. Elimination according with the local Authority Regulations. In a professional use, containers, even if completely empty, must be clean up before to be disposed.

4.1.5. Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Keep container tightly closed in cool and dry places, far from unauthorized people, far from foods and domestic animals. Protect from direct solar rays. Keep far from combustion fonts. Accurate ventilation/aspiration in work places.

5. GENERAL DIRECTIONS FOR USE¹

5.1. Instructions for use

Product is ready to use and must be used according doses written below. Avoid touching the product with bare hands, use protective gloves. Baits must be handled carefully and placed into the bait box, according the doses written below. The rodenticide baits must be placed in an appropriate bait box, tamper resistant and marked, available on the market. Observe the area of infestation and place bait boxes with baits at the dens, along rodents routes and places of major attendance.

5.2. Risk mitigation measures

Use all the individual precautions provided to avoid contact. Protect eyes and skin. When using do not eat, drink or smoke.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

In case of ingestion of large quantities, induce vomiting, perform gastrolavage or administer activated carbon. The prothrombin activity must be monitored immediately after ingestion and in the following days. If prothrombin activity is reduced, administered vitamin K. Follow proper medical protocol in agreement with a Poison Control Centre . Always ensure that bait boxes are secured properly and that the bait cannot be dragged away by rodents. Avoid treatments in the presence of not protected food or feed. Not to use in agriculture. Do not reuse the empty pack and not release in the environment, but dispose in accordance with current rules. In case of contamination wash hands thoroughly with soap and plenty of water. In case of suspected ingestion consult a Poison Control Center. The product can be dangerous if swallowed by pets or other non-target animals. If swallowed, induce vomiting. Contact your veterinarian immediately and show the container or label.

5.4. Instructions for safe disposal of the product and its packaging

Arrange disposal by incineration or with other approved suitable treatments. Elimination according with the local Authority Regulations. In a professional use, containers, even if completely empty, must be clean up before to be disposed.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Keep container tightly closed in cool and dry places, far from unauthorized people, far from foods and domestic animals. Protect from direct solar rays. Keep far from combustion fonts. Accurate ventilation/aspiration in work places.

¹Instructions for use, risk mitigation measures and other directions for use under this section are valid for any authorised uses.
