

Summary of product characteristics for a biocidal product

Product name: Protect Iso Propyl Wipes

Product type(s): PT04 - Food and feed area (Disinfectants)

PT02 - Disinfectants and algaecides not intended for direct application to humans or animals (Disinfectants)

Authorisation number: IE/BPA 70666

R4BP 3 asset reference number: IE-0024880-0001

Table Of Contents

Administrative information	1
1.1. Trade names of the product	1
1.2. Authorisation holder	1
1.3. Manufacturer(s) of the biocidal products	1
1.4. Manufacturer(s) of the active substance(s)	1
2. Product composition and formulation	2
2.1. Qualitative and quantitative information on the composition of the biocidal product	2
2.2. Type of formulation	2
3. Hazard and precautionary statements	3
4. Authorised use(s)	3
5. General directions for use	7
5.1. Instructions for use	7
5.2. Risk mitigation measures	7
5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment	7
5.4. Instructions for safe disposal of the product and its packaging	7
5.5. Conditions of storage and shelf-life of the product under normal conditions of storage	8
6. Other information	8

Administrative information

1.1. Trade names of the product

Protect Iso Propyl Wipes

1.2. Authorisation holder

Name and address of the authorisation holder

Name	Holchem Ireland Limited
Address	Trinity House Charleston Road, Ranelagh Dublin 6 Dublin Ireland

Authorisation number

IE/BPA 70666 1-1

R4BP 3 asset reference number

IE-0024880-0001

Date of the authorisation

24/12/2019

Expiry date of the authorisation

30/11/2029

1.3. Manufacturer(s) of the biocidal products

Name of the manufacturer

Pal International Limited

Address of the manufacturer

Bilton Way LE17 4JA Lutterworth United Kingdom
--

Location of manufacturing sites

Bilton Way LE17 4JA Lutterworth United Kingdom
--

1.4. Manufacturer(s) of the active substance(s)

Active substance	1355 - Propan-2-ol
Name of the manufacturer	INEOS GmbH
Address of the manufacturer	Romerstrabe 733 47443 Moers Germany
Location of manufacturing sites	Romerstrabe 733 47443 Moers Germany

Active substance	1355 - Propan-2-ol
Name of the manufacturer	Brenntag UK & Ireland (supplier of active substance), Albion House, Rawdon Park, Yeadon, Leeds, LS19 7XX
Address of the manufacturer	ExxonMobil Petroleum & Chemical B.V.B.A. (manufacturer of active substance), Polderdijkweg 3B B-2030 Antwerp Belgium
Location of manufacturing sites	Baton Rouge Chemical Plant (BRCP), Exxon Mobil Chemical Plant, 4999 Scenic Highway 70897 Baton Rouge United States

Active substance	1355 - Propan-2-ol
Name of the manufacturer	Brenntag UK & Ireland (supplier of active substance), Albion House, Rawdon Park, Yeadon, Leeds, LS19 7XX
Address of the manufacturer	Shell Chemicals Europe B.V. (manufacturer of active substance), PO Box 2334 3000 CH Rotterdam Netherlands
Location of manufacturing sites	Shell Chemicals Europe B.V., Haven 3222, Vondelingenweg 601, Vondelingenenplaat 3196 KK Rotterdam Netherlands

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Propan-2-ol		Active Substance	67-63-0	200-661-7	62,9

2.2. Type of formulation

3. Hazard and precautionary statements

Hazard statements

Highly flammable liquid and vapour.
Causes serious eye irritation.
May cause drowsiness or dizziness.

Precautionary statements

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. - No smoking.
Avoid breathing vapours.
Store in a well-ventilated place. Keep container tightly closed.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice.

4. Authorised use(s)

4.1 Use description

Use 1 - PT4 Ready to use Wipes

Product type

PT04 - Food and feed area (Disinfectants)

Where relevant, an exact description of the authorised use

General Disinfection of hard surfaces in industrial and institutional areas including food contact surfaces.

Target organism(s) (including development stage)

Scientific name: Bacteria Gram positive
Common name: Bacteria
Development stage: Bacterial cells

Scientific name: Bacteria Gram negative
Common name: Bacteria
Development stage: Bacterial cells

Scientific name: Yeast species
Common name: Yeasts
Development stage: Cellular yeast

Scientific name: Mycobacteriaceae
Common name: Mycobacteria
Development stage: Bacterial cells

Scientific name: Not applicable
Common name: viruses
Development stage: Not applicable

Field(s) of use	Indoor Disinfectant of non invasive medical devices and equipment within healthcare environments; disinfectant of hard surfaces in professional environments; disinfectant for use in clean rooms and controlled areas of biotechnology, pharmaceutical, medical device, healthcare and other critical life science applications; disinfectant of food contact surfaces.
Application method(s)	Ready to use wipes - Product is ready to use intended for professional use where training and protocols are already in place or provided for the use of wipes. 1. Follow agreed risk assessment policy guidelines regarding the use of PPE. 2. Choose the dispenser type and dispense the wipe. 3. Wipe the surface in an S Shape moving from clean to dirty. Use the wipe flat not scrunched. Do not go over the same area twice with the same wipe. 4. Use a fresh wipe if your wipe becomes soiled or dry. 5. Discard used wipes in the appropriate waste bin following local agreed guidelines. If using a maceratable wipe, discard in the macerator.
Application rate(s) and frequencies	6g liquid per wipe (4.2g IPA) - 0 - As required and according to use instructions. Use one wipe to disinfect the surface. On heavily soiled surfaces, more than one wipe may be required. Typical use frequency is one application every 30 minutes.
Category(ies) of users	Professional
Pack sizes and packaging material	100% Polypropylene wipes: 150 wipes: 0.5L HDPE canister 200 wipes: 2L HDPE canister 500, 1000 and 1500 wipes: 8L PP Bucket Sterile and non-sterile

4.1.1 Use-specific instructions for use

See general directions.

4.1.2 Use-specific risk mitigation measures

See general directions.

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

See general directions.

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

See general directions.

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

See general directions.

4.2 Use description

Use 2 - PT2 Ready to use Wipes

Product type

PT02 - Disinfectants and algacides not intended for direct application to humans or animals (Disinfectants)

Where relevant, an exact description of the authorised use

General Disinfection of hard surfaces in industrial and institutional areas.

Target organism(s) (including development stage)

Scientific name: Bacteria Gram positive
Common name: Bacteria
Development stage: Bacterial cells

Scientific name: Bacteria Gram negative
Common name: Bacteria
Development stage: Bacterial cells

Common name: Yeasts
Development stage: Cellular yeast

Scientific name: Mycobacteriaceae
Common name: Mycobacteria
Development stage: Bacterial cells

Scientific name: Not applicable
Common name: Viruses
Development stage: Not applicable

Field(s) of use

Indoor

Disinfectant of non invasive medical devices and equipment within healthcare environments; disinfectant of hard surfaces in professional environments; disinfectant for use in clean rooms and controlled areas of biotechnology, pharmaceutical, medical device, healthcare and other critical life science applications.

Application method(s)

Ready to use wipe -
Product is ready to use intended for professional use where training and protocols are already in place or provided for the use of wipes.
1. Follow agreed risk assessment policy guidelines regarding the use of PPE.
2. Choose the dispenser type and dispense the wipe.
3. Wipe the surface in an S Shape moving from clean to dirty. Use the wipe flat not scrunched. Do not go over the same area twice with the same wipe.
4. Use a fresh wipe if your wipe becomes soiled or dry.
5. Discard used wipes in the appropriate waste bin following local agreed guidelines. If using a maceratable wipe, discard in the macerator.

Application rate(s) and frequencies

6g liquid per wipe (4.2g IPA) - 0 -
As required and according to use instructions. Use one wipe to disinfect the surface. On heavily soiled surfaces, more than one wipe may be required. Typical use frequency is one application every 30 minutes.

Category(ies) of users

Professional

Pack sizes and packaging material

100% Polyester wipes:
25, 50 wipes: PET/PE laminate flow wrap
200 wipes: PET/Foil/PE laminate flow wrap
Sterile and non-sterile

4.2.1 Use-specific instructions for use

See general directions.

4.2.2 Use-specific risk mitigation measures

See general directions.

4.2.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

See general directions.

4.2.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

See general directions.

4.2.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

See general directions.

5. General directions for use

5.1. Instructions for use

Pal IPA Product Family

Use one wipe to disinfect the surface. On heavily soiled surfaces, more than one wipe may be required. Do not use on surfaces sensitive to alcohol

Product is ready to use intended for professional use where training and protocols are already in place or provided for the use of wipes.

1. Follow agreed risk assessment policy guidelines regarding the use of PPE.
2. Choose the dispenser type and dispense the wipe.
3. Wipe the surface in an S Shape moving from clean to dirty. Use the wipe flat not scrunched. Do not go over the same area twice with the same wipe.
4. Use a fresh wipe if your wipe becomes soiled or dry.
5. Discard used wipes in the appropriate waste bin following local agreed guidelines. If using a maceratable wipe, discard in the macerator.

5.2. Risk mitigation measures

Pal IPA Product Family

Follow agreed risk assessment policy guidelines regarding the use of PPE.

Eyes/Face: Wear chemical goggles; face shield (if splashing is possible).

Skin/hands: Use chemical resistant impervious resistant gloves when handling this product.

Use with adequate ventilation.

The product is highly flammable, and explosive vapour/air mixtures may be formed even at normal room temperatures. Do not handle or store near an open flame, heat or other sources of ignition. Do not smoke. Use only in well-ventilated areas. Avoid prolonged exposure. Wash thoroughly after handling. Handle and open container with care.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

Pal IPA Product Family

If IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do- continue rinsing. If eye irritation persists, get medical advice/attention.

5.4. Instructions for safe disposal of the product and its packaging

Pal IPA Product Family

Dispose of contents/container in accordance with local/regional/national/international regulations. Do not flush wipes down the toilet. Residual alcohol should be emptied prior to disposal of container.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Pal IPA Product Family
Must be stored in the original packaging. Keep container tightly closed. Shelf-life (unopened) = 3 years

6. Other information
