Administrative information

1.1. Trade names of the product

KONSERVAN P40
BEMATIN Per 40

1.2. Authorisation holder

Name and address of the authorisation holder	Name	THOR GmbH
	Address	Landwehrstrasse 1 D-67346 Speyer Germany
Authorisation number	FR-2022-0065	
R4BP 3 asset reference number	FR-0014522-0000	
Date of the authorisation	11/08/2022	
Expiry date of the authorisation	10/08/2032	

1.3. Manufacturer(s) of the biocidal products

Name of the manufacturer	Thor France SARL
Address of the manufacturer	325, rue des Balmes CS 50041 SALAISE SUR SANNE France
Location of manufacturing sites	325, rue des Balmes CS 50041 SALAISE SUR SANNE France

1.4. Manufacturer(s) of the active substance(s)

Active substance	1342 - Permethrin
Name of the manufacturer	Lanxess Deutschland GmbH
Address of the manufacturer	Kennedyplatz 1 50569 Köln Germany
Location of manufacturing sites	Bayer Vapi Private Limited Plot # 306/3 II Phase, GIDC Vapi – 396 195 Gujarat India

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Permethrin		Active Substance	52645-53-1	258-067-9	43

2.2. Type of formulation

EC - Emulsifiable concentrate

3. Hazard and precautionary statements

Hazard statements	<p>Harmful if swallowed.</p> <p>May cause an allergic skin reaction.</p> <p>Very toxic to aquatic life.</p> <p>Very toxic to aquatic life with long lasting effects.</p>
Precautionary statements	<p>Avoid breathing .</p> <p>Wash ... thoroughly after handling.</p> <p>Do no eat, drink or smoke when using this product.</p> <p>Contaminated work clothing should not be allowed out of the workplace.</p> <p>Avoid release to the environment.</p>

Wear .

IF SWALLOWED:Call a POISON CENTER/doctor/... if you feel unwell.

IF ON SKIN:Wash with plenty of water/....

If skin irritation or rash occurs:Get medical .

Specific treatment (see ... on this label).

Take off contaminated clothing.And wash it before reuse.

Rinse mouth.

Collect spillage.

Dispose of to hazardous waste.

4. Authorised use(s)

4.1 Use description

Use 1 - Wool protection for non-wet washable wool

Product type	PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)
Where relevant, an exact description of the authorised use	Wool preventive protection against textile-attacking insects.
Target organism(s) (including development stage)	<p>Scientific name: Tineola bisselliella Common name: Moths Development stage: Larvae</p> <p>Scientific name: Tineola bisselliella Common name: Moths Development stage: Adults</p> <p>Scientific name: Anthrenus flavipes Common name: Carpet beetles Development stage: Adults</p>
Field(s) of use	<p>Indoor</p> <p>Indoor application of the biocidal product with insecticide active component for controlling keratin feeding textile pests. Application: Wool textile fibers for use in the manufacturing of non-washable home textiles (sofa, carpets, rugs) or insulating material.</p>
Application method(s)	<p>Method: exhaust process Detailed description: The requested amount of the biocidal product is added to the dyeing bath.</p>
Application rate(s) and frequencies	Application Rate: Amounts to be used to obtain protection against: Tineola bisselliella (adults and larvae) + Anthrenus flavipes (adults): 0.06% product in the wool

Dilution (%):
Number and timing of application:
Amounts to be used to obtain protection against : Tineola bisselliella (adults and larvae)
+ Anthrenus flavipes (adults): 0.06% product in the wool

Category(ies) of users

Industrial

Pack sizes and packaging material

Jerry can, Plastic: HDPE , 20 kg
Jerry can, Plastic: HDPE , 25 kg
Jerry can, Plastic: HDPE , 30 kg
IBC (intermediate bulk container), Plastic: HDPE , 1000 kg

4.1.1 Use-specific instructions for use

-For production of non-washable wool only.
-The person responsible for the placing on the market of treated articles shall ensure that the label of these treated articles provides the following information: "Treated wool must not be washed"

4.1.2 Use-specific risk mitigation measures

- Do not apply the product on wet washable wool.

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

-

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

-

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

-

5. General directions for use

5.1. Instructions for use

- Always read the label or leaflet before use and respect follow all the instructions provided
- Respect the recommended application doses.
- Inform the authorization holder if the treatment is ineffective.
- The authorization holder should report any observed resistance incidents to the Competent Authorities (CA) or other appointed bodies involved in resistance management.

5.2. Risk mitigation measures

- For industrials, wear protective chemical resistant gloves (glove material to be specified by the authorisation holder within the product information) and coverall during the coupling and decoupling of transfer lines.
- Avoid direct and indirect contact with food and feed..
- Application solutions must be collected and reused or disposed as a hazardous waste. They must not be released to soil, ground, surface water or any kind of sewer.
- The product may only be loaded with an automatic dosing system.
- The textile treatment process (application and post-application) has to be an automated process, without direct contact by the workers.
- Avoid contact to freshly treated textiles.

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

- In case of impaired consciousness place in recovery position and seek medical advice immediately. Do not give fluids or induce vomiting.
- Keep the container or label available.
- Skin contact: Remove contaminated clothing and shoes. Wash contaminated skin with soap and water. Contact poison treatment specialist if symptoms occur.
- Eye contact: Immediately flush with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses if easy to do. Continue to rinse with tepid water for at least 10 minutes. Get medical attention if irritation or vision impairment occurs.
- Ingestion: Wash out mouth with water. Contact poison treatment specialist. Seek medical advice immediately if symptoms occur and/or large quantities have been ingested.
- Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Seek medical advice immediately if symptoms occur and/or large quantities have been inhaled.
- Pyrethroids and pyrethrines may causeparesthesia (burning and prickling of the skin without irritation). If symptoms persists : Get medical advice.

5.4. Instructions for safe disposal of the product and its packaging

- Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
- Dispose of unused product, its packaging and all other waste, in accordance with local regulations.

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

Shelf life of the product: 12 months
Storage over 10°C

6. Other information

- The authorization holder has to report any observed resistance incidents to the Competent Authorities (CA) or other appointed bodies involved in resistance management.
- A new emulsifiability test is on-going and should be provided in post-authorization. The test after long term storage is required. An analytical method for the determination of active substance enantiomers in the product KONSERVAN P40 should be submitted in post-authorization.
