

# Summary of product characteristics for a biocidal product

**Product name:** Proculac

**Product type(s):** PT02 - Disinfectants and algaecides not intended for direct application to humans or animals (Disinfectants)

PT04 - Food and feed area (Disinfectants)

**Authorisation number:** EU-0031834-0000

**R4BP 3 asset reference number:** EU-0031834-0000

## Administrative information

### 1.1. Trade names of the product

Proculac
----------

### 1.2. Authorisation holder

<b>Name and address of the authorisation holder</b>	Name	GLOBUZ
	Address	Heidebergen 37 9830 Sint-Martens-Latem Belgium
<b>Authorisation number</b>	EU-0031834-0000	
<b>R4BP 3 asset reference number</b>	EU-0031834-0000	
<b>Date of the authorisation</b>	15/01/2024	
<b>Expiry date of the authorisation</b>	15/01/2034	

### 1.3. Manufacturer(s) of the biocidal products

<b>Name of the manufacturer</b>	Globuz
<b>Address of the manufacturer</b>	Heidebergen 37 9830 Sint-Martens-Latem Belgium
<b>Location of manufacturing sites</b>	Sofel - Weverijstraat 6 9600 Ronse Belgium

### 1.4. Manufacturer(s) of the active substance(s)

<b>Active substance</b>	1421 - Lactic acid
<b>Name of the manufacturer</b>	Jungbunzlauer BV
<b>Address of the manufacturer</b>	Merwehoofd 58 NL-3351 NB Papendrecht Netherlands
<b>Location of manufacturing sites</b>	Merwehoofd 58 NL-3351 NB Papendrecht Netherlands

## 2. Product composition and formulation

### 2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
Lactic acid		Active Substance		200-018-0	0,9

### 2.2. Type of formulation

AL - Any other liquid
-----------------------

## 3. Hazard and precautionary statements

<b>Hazard statements</b>	
<b>Precautionary statements</b>	

## 4. Authorised use(s)

## 4.1 Use description

### Use 1 - Disinfectant for hard clean non-porous surfaces without direct contact with food or feeding stuff

<b>Product type</b>	PT02 - Disinfectants and algaecides not intended for direct application to humans or animals (Disinfectants)
<b>Where relevant, an exact description of the authorised use</b>	-
<b>Target organism(s) (including development stage)</b>	Scientific name: Common name: Bacteria Development stage:  Scientific name: Common name: Yeasts Development stage:
<b>Field(s) of use</b>	Indoor  Disinfection of hard clean non-porous surfaces without food contact in domestic and institutional area (excluding healthcare area).
<b>Application method(s)</b>	Method: Manual application Detailed description: Large surface (e.g. tables, floors) disinfection by pouring. Silicone or rubber window/floor wiper should be used to distribute the product on surface.  Method: Manual application Detailed description: Surface and equipment disinfection by spraying.
<b>Application rate(s) and frequencies</b>	Application Rate: Apply the product by fully wetting the surface - 150 ml/m <sup>2</sup> Dilution (%): The product is a ready-to-use liquid. Number and timing of application: Contact time - 60 minutes  Use when necessary.  Application Rate: Make sure to wet the surface completely by spraying the product onto the surface to be disinfected (150 ml/m <sup>2</sup> ) Dilution (%): The product is a ready-to-use liquid. Number and timing of application: Contact time - 60 minutes Use when necessary.
<b>Category(ies) of users</b>	Professional  General public (non-professional)
<b>Pack sizes and packaging material</b>	HDPE bottles - 1 liter HDPE bottles - 5 liter HDPE bottles - 25 liter  HDPE – High density polyethylene

#### 4.1.1 Use-specific instructions for use

See general instruction for use.

#### 4.1.2 Use-specific risk mitigation measures

See general instruction for use.

#### 4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

See general instruction for use.

#### 4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

See general instruction for use.

#### 4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

See general instruction for use.

### 4.2 Use description

**Use 2 - Disinfectant for hard clean non-porous surfaces which has contact with food and feeding stuffs**

**Product type**

PT04 - Food and feed area (Disinfectants)

**Where relevant, an exact description of the authorised use**

-

**Target organism(s) (including development stage)**

Scientific name:  
Common name: Bacteria  
Development stage:

Scientific name:  
Common name: Yeasts  
Development stage:

<b>Field(s) of use</b>	Indoor  Disinfection of hard clean non-porous surfaces with food contact in domestic, institutional and industrial area (excluding milk industry)
<b>Application method(s)</b>	Method: Manual application Detailed description: Large surface (e.g. tables, floors) disinfection by pouring. Silicone or rubber window/floor wiper should be used to distribute the product on surface.  Method: Manual application Detailed description: Surface and equipment disinfection by spraying.
<b>Application rate(s) and frequencies</b>	Application Rate: Apply the product by fully wetting the surface - 150 ml/m <sup>2</sup> Dilution (%): The product is a ready-to-use liquid. Number and timing of application: Contact time - 60 minutes. Use when necessary.  Application Rate: Make sure to wet the surface completely by spraying the product onto the surface to be disinfected (150 ml/m <sup>2</sup> ) Dilution (%): The product is a ready-to-use liquid. Number and timing of application: Contact time - 60 minutes. Use when necessary.
<b>Category(ies) of users</b>	Professional  General public (non-professional)
<b>Pack sizes and packaging material</b>	HDPE bottles - 1 liter HDPE bottles - 5 liter HDPE bottles - 25 liter  HDPE – High density polyethylene

#### 4.2.1 Use-specific instructions for use

See general instruction for use.

#### 4.2.2 Use-specific risk mitigation measures

See general instruction for use.

#### **4.2.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

See general instruction for use.

#### **4.2.4 Where specific to the use, the instructions for safe disposal of the product and its packaging**

See general instruction for use.

#### **4.2.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage**

See general instruction for use.

### **5. General directions for use**

#### **5.1. Instructions for use**

Comply with the instruction of use.

Remove gross soiling and pre-clean the surface before applying the product.

1. Pour the product into a spray bottle. Make sure to wet the surface completely by spraying the product onto the surface to be disinfected.

2. Pour the product onto the large surface and then use a silicone or rubber window /floor wiper for product distribution. Ensure that the surface is completely wet after the treatment step.

Leave wet for 60 minutes. Wipe dry or let air dry. No rinsing of surface required. Disinfect surfaces and objects as frequently as required by the hygiene protocol in place.

#### **5.2. Risk mitigation measures**

No specific risk mitigation measures.

#### **5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment**

Direction for the first aid:

- IF INHALED: If symptoms occur call POISON CENTER or a doctor
- IF SWALLOWED: If symptoms occur call POISON CENTER or a doctor
- IF IN EYE: If symptoms occur rinse with water. Remove contact lenses, if present and easy to do. Call a POISON CENTER or a doctor
- IF ON SKIN: Wash skin with water. If symptoms occur call POISON CENTER or a doctor.

If medical advice is needed, have product container or label at hand.

#### **5.4. Instructions for safe disposal of the product and its packaging**

Dispose of unused product, its packaging and all other waste in accordance with local regulations.  
Do not discharge unused product on the ground, into water sources, into pipes nor down the drains.

#### **5.5. Conditions of storage and shelf-life of the product under normal conditions of storage**

Shelf-life: 12 months at room temperature.  
Keep out of reach of children and non-target animals/pets.

#### **6. Other information**

None.
