## Extended expiry date for LIPHATECH – GENERATION GRAIN'TECH – NO-2012-0009

We refer to the expiry date for the biocidal product GENERATION GRAIN'TECH – NO-2012-0009.

### Decision

The Norwegian Environment Agency hereby grants LIPHATECH a postponement of the expiry date for the authorisation for the biocidal product GENERATION GRAIN'TECH on the Norwegian market. The expiry date is postponed from 1 July 2024 to 1 July 2026.

The product is authorised in Norway under the terms and conditions as described in the final Norwegian Summary of Product Characteristic (SPC) attached to the R4BP3 asset no. NO-0002294-0000. The final SPC can also be found on the website of the European Chemicals Agency: [Information on biocides - ECHA \(europa.eu\)](https://echa.europa.eu/information-on-biocides).

The grant of extension of expiry date is given in accordance with Article 31(7) of Regulation (EU) No 528/2012 (the Biocidal Products Regulation, BPR).

### Background

The BPR is implemented in Norwegian law through the Norwegian Biocide Regulation of 18 April 2017 No 480.

The biocidal product is in the renewal process in line with Article 31 of the BPR where the Norwegian Environment Agency acts as the reference Member State.

### Evaluation by the Norwegian Environment Agency

As a reference Member State, the Norwegian Environment Agency is not able to take a decision on this renewal before its expiry. Hence, the expiry date is postponed until 1 July 2026 in order to have sufficient time for the renewal evaluation.

## Right to appeal

This decision may be appealed to the Ministry of Climate and Environment.

An appeal shall be submitted to the Norwegian Environment Agency within three weeks after receipt of this letter.

Best regards  
Norwegian Environment Agency
